PERSONAL PROJECTS

Drive Mate (12/2023 - Present)

- Elevated the Drive Mate project by developing both frontend and backend functionalities for a peer-to-peer car rental platform. Enhanced the user interface for seamless navigation, allowing customers to easily browse and rent cars listed by car owners. Implemented robust features ensuring a user-friendly experience, ultimately contributing to the success of the platform in facilitating peer-to-peer car rentals.
- Tech stack: MongoDB, Express.js, React.js, Node.js, Tailwind CSS, JWT.
